

**6TH AFC MEDICAL
CONFERENCE**
CHENGDU 2019
4 - 8 March 2019

**“Football & Sports Medicine -
the Challenging Horizon”**

Dr. Zarko Vuckovic is a General Surgeon and a groin pain specialist. He developed his surgical skills in Belgrade, Serbia where he completed his surgical training, and worked as a general surgeon before coming to Qatar in 2007. Alongside his work as a surgeon in a general hospital, having a notable sports culture and affection for sports, he has also worked with a number of high level sports organisations throughout his career, such as the Serbian Handball Federation; Bezanija FC Belgrade, Serbia; Qatar Volleyball Association, and Shamal FC, Qatar.

He was a team doctor for various international and local competitions, was a member of the Medical Organizing Committee EYOF 2007 Belgrade, Serbia, and medical consultant to Mr. Bora Milutinovic during 2009 FIFA Confederations Cup preparation for the Iraq National team. He was also responsible for the VIP medical coverage during World Handball Championship 2015 in Doha, Qatar. Since 2010 Dr. Vuckovic has been a member of Aspetar Sports Groin Pain Centre, devoted entirely to diagnostics and treatment of sports related groin pain and treating more than 100 patients with this medical problem per year.
